ULBS

LUCIAN BLAGA University of Sibiu is a dynamic university, which is visible throughout its history.

Founded on the tradition of the 225 years of higher education in Sibiu, LUCIAN BLAGA University is, at the moment, one of the most competitive universities in Romania.

The quality of education and research in LBUS is appreciated and rewarded by the state evaluation institutions, LBUS being acknowledged as "Academic Center of Excellence" and one of the few universities throughout the country whose scientific research has been acknowledged.

Promoting values such as the entrepreneurial and innovative spirit, quality research and openness, LBUS encourages its students to develop their creativity and potential, preparing and supporting them in developing a successful career.

Faculty of Medicine

The Faculty of Medicine was founded in 1990. It is actively integrated in the local academic center, further developing the medical tradition of the old citadel of Sibiu.

The medical specialties studied at LBUS can rely on the local hospitals for practical training. The up-to-date research centers of the faculty develop activities meant to serve the entire community and promote the innovative and entrepreneurial spirit that characterizes the LBUS.

The Medical School of LBUS has founded the first Nursing Center in Romania in partnership with the University of Central Lancashire, UK, and the support offered by a Tempus Program. Thus, it has adopted a new scientific perspective that is based on international study programs in the domain.

Educational Offer – Bachelor's Degree Programs

| | |
|--------------------------|-------------------------|
| Medicine courses | 6 years/360 credits/day |
| Nursing courses | 4 years/240 credits/day |
| Dental Medicine courses | 6 years/360 credits/day |
| Dental Technique courses | 3 years/180 credits/day |
| Pharmacy courses | 5 years/300 credits/day |

Career

Graduates of General Medicine and Dental Medicine have always been competitive considering their theoretical knowledge, practical skills and, thus, their successful integration in the health care systems. As graduates of the Degree Study Program young doctors can continue their training in a residency program for a clinical / laboratory specialty or in an MA/Doctoral Study Program for scientific research.

The specialty of Pharmacy ensures the students' training in the field of pharmaceutical sciences.

Nursing courses aim at teaching students how to assess preventive, curative and recuperative healthcare needs. Graduates acquire the knowledge and skills to administer the treatment prescribed by doctors, manage and provide district healthcare services, design programs and educational healthcare activities.

Graduates of Dental Technique are prepared to provide supportive activities in Dental Medicine assistance.

Financial support

Student performance is encouraged and supported by scholarships of excellence, performance or study. Moreover, students with financial or health problems have access to social scholarships. Their minimum value covers the accommodation costs, whereas a scholarship of excellence almost equals the national minimum wage.

Scientific research

Research in The Faculty of Medicine of LBUS is done in collaboration with local healthcare institutions and is meant to improve prevention, diagnosis and treatment of patients. To this purpose students and professors are given the chance to research into microsurgery, noninvasive open surgery of the eye or pediatric respiratory medicine.

LBUS has based an innovative format in Romanian medical higher education by advancing a new approach to the healthcare system in "The Romanian Nursing Development Center".

Student associations

Medical School students of LBUS have founded "The Hippocrates Society of Medical School Students" and "The Dentistry Students' Organization" to represent their professional, humanitarian, social and cultural interests.

Confucius Institute

Organizes courses of Chinese language and culture, practical courses of Taijiquan, Go, calligraphy etc. and provides bibliographic resources of/in Chinese language.

International relations

LBUS has established international academic links and partnership agreements to give students a wide range of career development opportunities.

Student mobility programs are coordinated by the Department of International Relations and representatives of the faculties.

So far many students of LBUS have taken up long-term training courses abroad. LBUS (the only Romanian university engaged in the programs 'Erasmus Mundus Mobility with Asia' and 'Erasmus Mundus Mobility with Asia West') can offer a variety of opportunities for students as a result of more than 200 partnerships with important European universities.
